^{1/} Agricultural areas selected for inclusion are those areas in which a peak of at least 10,000 seasonal hired workers or 1,000 foreign workers was reached in 1963 as reported in In-Season Farm Labor Reports, ES-223. Data for each area satisfying these criteria are presented monthly in this report. However, areas are omitted during months for which they are not required to submit ES-223 reports. Such reports are not required for periods in which fewer than 500 seasonal farmworkers are employed unless higher employment will be resumed after a "lay-by" period, foreign workers are employed, or specified shortages or surpluses of seasonal hired farmworkers exist. Figures are preliminary and subject to revision.

^{2/} The number of contract Puerto Rican workers is a subtotal of interstate migrant workers.

^{3/} Includes Canadians, Filipinos, and Japanese.
